

Crisis Manager App Download and Installation Instructions

1. Go to the App Store and search for **“Crisis Manager”** on your smart phone, iPad, or other device (See below) ***Note: If you have an Android device and can’t find Crisis Manager in your search, try searching for “School Dude” then attempt to locate the Crisis Manager App.**
2. Download the app
3. Open the app once it has downloaded
4. At the log in screen click **“Continue without logging in”** (See below)

5. When the new screen appears click the plus sign (+) in the upper right corner of your device.
6. When the next screen appears type 'Eastern' in the **“Find Crisis Plan by Keyword”** box then click the search button below the box. (See next page)

7. After the app searches for and locates 'Eastern', a box will appear that says "**Utah State University Eastern**". Click the box to load our app.
8. A box will appear asking for a password. Enter the password 'eagles' and select "Use Password to Download". When the plan has downloaded, select it to view our crisis plans.
